RECKLESS BICYCLE RIDING.

Young Man Killed by Collision of  
Wheels.

Baker City, Nov. 10.—One of the  
most unfortunate and distressing ac-  
cidents that ever happened in Baker  
City occurred last evening resulting  
in the death of Waldo Bowers, one of  
Baker City's most exemplary young  
men.

The particulars, as learned, were  
that Bowers and W. S. Swackham-  
mer, an employee of the First National  
bank, were on bicycles riding to-  
ward each other on Center street,  
and when near the Nugget saloon,  
they came together with terrible  
force, throwing both to the ground.

Bowers was carried into a nearby res-  
taurant in an unconscious condition.  
He never regained consciousness and  
died a few hours after the accident  
occurred.

Mr. Swackhammer, while badly  
bruised, was at last accounts resting  
as easily as could be expected under  
the circumstances.

BY-PRODUCT OF FIRE.

Immense Value of Material Hitherto  
Thrown Away.

Bellingham, Nov. 10.—Mr. Willis  
E. Young, of the Pacific American  
Lumber Company of Bellingham, Wash.,  
is authority for the statement "that  
25 tons of fir wood, such as is thrown  
away or burned in the slab pile of  
the saw mills, will turn out 1020 gal-  
lons of turpentine, 57 pounds of tar,  
eight pounds of tar oil, 3000 bushels  
of charcoal and 700 gallons of pyro-  
genous acid."

Mr. Young's company has put in a  
plant at a cost of \$55,000. The com-  
pany expects a prosperous business,  
and there is no reason why this dis-  
covery should not bring about great-  
ly increased profit in the lumber  
business all over the Northwest.

HUNG HERSELF.

Prominent Chicago Club Woman In-  
sane From Overwork.

Chicago, Nov. 10.—Mrs. Henry  
Donaldson, wife of a professor in the  
University of Chicago, was found  
dead, in the basement of her home  
today. She hung herself. The woman  
was prominent in club circles,  
and had made a study of neurology  
with her husband. Overwork led to  
nervous prostration.

CAPTAIN WHITE  
DEEPLY GRIEVED

"BABY DISFIGURED,  
BUT STILL IN THE RING."

"Would Be a Gallant Thing to Make  
it Unanimous"—Captain White Is  
Still a Democrat and Believes in  
Fortifying, Organizing, Fighting—  
Truce and Official Dishonesty the  
Future Targets of Democracy—Is  
Hopeful for the Future.

"Please don't speak of politics,"  
said Captain Samuel White, former  
democratic state chairman, to the  
East Oregonian last evening.

"Don't speak of such a sad affair,  
so soon after the disaster. If it were  
possible, it would be a gallant thing  
to do to make it unanimous."

"I am perfectly at sea. I am be-  
wildered. I cannot say how I feel  
until after I have become composed.  
It was simply an avalanche; landslide  
but mildly expresses it. Popularity,  
rather than sound political doctrine,  
however, is responsible for the result."

"When Judge Parker was first  
nominated, the feeling in favor of  
the democratic candidate was very  
promising. The prospect was propi-  
tious. The anti-Roosevelt senti-  
ment that came apparently from the  
East gave hope to the democrats,  
and the endorsement of the sound  
principles of Judge Parker, made it  
appear that a change for the better  
had taken place in the country."

"But it is all over now. The only  
thing for democrats to do is to or-  
ganize, concentrate, fortify and fight  
fight, fight! There is hope every-  
where. I believe the principles of  
democracy are indestructible and that  
it requires only proper unity and co-  
operation on the part of democrats  
to finally accomplish the high ideals  
ahead of the party."

"As long as a criminal trust exists  
in the country, fostered and made fat  
by levying tribute on the masses,  
with the co-operation of congress and  
courts, there is a burning mission for  
the democratic party. As long as  
there is a dishonest official in the  
public service, there is a mission for  
the party, and we must not get sick  
at even a defeat of this magnitude."

"Four years from now conditions  
will have changed, and democracy  
will have taken such advance steps,  
that success will come to it."

"The party has an underlying prin-  
ciple, rooted deep in the foundations  
of freedom and justice for the masses  
and cannot long be held down by the  
combined forces of public patronage  
and organized violation of the anti-  
monopoly law. I am sick, but hope-  
ful and determined."

dusen, democrat, for congress, 2345;  
A. S. Yerington, republican, 2399.  
The republicans have made a clean  
sweep, carrying nearly every county.  
Both parties claim the legislature.

Colorado in a Tangle.

Denver, Nov. 10.—The situation in  
Colorado is still in a tangle, but there  
is reason to believe Adams, demo-  
crat, is elected governor by about  
7000 plurality. The Roosevelt electors  
carried the state by about 20,000.  
The plurality returns are still incomplete,  
not 50 per cent being counted.

Adams Surely Elected.

The election of Adams is no longer  
seriously disputed by the republic-  
ans. All other candidates on the  
democratic state ticket appear to be  
elected. The republicans thirteen to  
contest the state vote, alleging fraud  
in Denver precincts. The democrats  
control both branches of the legisla-  
ture.

Baltimore Is Close.

Baltimore, Nov. 10.—Unofficial re-  
turns give Roosevelt a plurality of  
128 in the city. The official count  
will be required to decide. There is  
a possibility that each party may get  
a part of the electors.

The republicans and democrats  
have three congressmen each.

May Contest Folk.

Kansas City, Nov. 10.—A story  
from St. Louis is to the effect that  
the republicans will contest the elec-  
tion of Folk on the ground that he  
spent more than \$5000 campaigning.  
It is claimed they can show he spent  
\$7000 through one bank alone.

rives at San Francisco.

San Francisco, Nov. 10.—Prince  
Fushimi, cousin of the emperor of  
Japan, and special envoy to the  
United States, arrived this morning  
on the steamer Manchuria, and was  
officially welcomed by the Japanese  
consul and the port officials. Hun-  
dreds of Japanese gathered at the

No More Flights by "Arrow."

St. Louis, Nov. 10.—As a result of  
a clash between T. S. Baldwin and  
the fair officials, it is probable there  
will be no further trials of the Cal-  
ifornia ship, and the vessel is  
packed for shipment. The trouble  
arose over the financial settlement  
for the flights by the "Arrow."

WORK ON THE BUILDINGS.

Over 500 Hammers and Saws Busy  
at Lewis and Clark Fair Site.

Portland, Nov. 10.—Since the Lewis  
and Clark exposition was projected  
there has not been more activity up-  
on the extensive grounds than there  
was yesterday, with more than 500  
hammers, saws and shovels in action.  
The progress made on the work  
of construction during the past week  
is remarkable. Four or five new  
buildings have been started and the  
finishing details have been applied to  
the skeletons of buildings started  
months ago with remarkable rapid-  
ity and fine effect.

The ceiling of the Oregon state  
building is being whitewashed. The  
process is one of the most interesting  
sights on the grounds. Men work 200  
feet above the floor on rafters and  
scaffolds, pouring on whitewash  
pumped through lines of hose by an  
engine on the ground floor. It would  
be impossible to whitewash the build-  
ing by hand.

In this same building the skylights  
and dome are being fitted with a  
substance known as translucent fab-  
ric, a combination of oil and varn-  
ishes which serves the purpose of  
glass. Before the work has been  
finished there will be 15 boxes of this  
material used, and each box contains  
32 sheets, each of which measures  
eight feet square.

Kinney, daughter of Governor Mur-  
phy, of New Jersey, christened the

COUNCIL MEETING

TELEPHONE RIGHT OF  
WAY PETITIONED FOR.

Music in Saloons and Women in Sa-  
loon Boxes Were Discussed—Ordin-  
ance Authorized Licensing Open-  
Air Restaurants—Eagles Given  
Permission to String Advertising  
Banners—Petition for Fire Bell  
Tower.

A new telephone line is soon to be  
installed north of Pendleton and ex-  
tending into town. Permission was  
asked last night of the city council  
for a franchise granting the right to  
string wires and poles in the streets.  
The telephone system is known as the  
Birch Creek Mutual Telephone Com-  
pany and its stockholders are farm-  
ers residing in the Birch creek neigh-  
borhood. The petition was referred  
to the street committee for consid-  
eration.

Very little business was transac-  
ted at last night's council session.  
The mayor and councilmen discussed  
everything from music in saloons to  
profanity in the streets. The chief  
of police stated that music was being  
played in one of the Main street sa-  
loons, but as there was no ordinance  
against it he wanted instructions.

A councilman remarked that the  
only way to stop music in saloons and  
to keep women from saloon boxes  
was to pass ordinances prohibiting  
them. "I was not aware that women  
were now frequenting the saloons,"  
remarked the mayor.

"Then you haven't been around  
much," replied the councilman.  
It was decided to take action re-  
garding the saloon box and the music  
in saloons ordinances at the next  
council session.

The city attorney was instructed to  
draw up a bill for an ordinance li-  
censing open air restaurants.

A petition was received from the  
members of Hose Company No. 4,  
asking that a tower be constructed  
at their station and a fire bell be  
placed there. The petition was re-  
ferred to the fire committee.

The liquor license of Mrs. August  
Stangler was transferred to Paul  
Hemigard.

The local aerie of Eagles was  
granted the privilege of stringing  
banners over the streets, advertising  
a coming minstrel performance.

under consideration the appeal for a  
new trial in the case of Woodson  
Gray, convicted of manslaughter.  
Gray was tried in the courts of Union

were argued on motion to appeal this  
afternoon. Both cases grew out of  
the question of the liability of the  
railroad company for the burning of  
grain warehouses along its lines. H.  
F. Conner appears for the appellant,  
and Halleray & McCourt for the re-  
spondents in the two actions.

tificate from the state of Ohio, and
